

# Inspire THE NEXT GENERATION OF STRONG, SMART & BOLD LEADERS

Workplace Mentors work with Girls Inc. of Carpinteria to coordinate the placement of a dedicated teen at their place of business. These teens, called Externs, are part of our 5 year college bound program, Eureka!

With the encouragement of professionals who believe in them and intentional Girls Inc. programming, Externs will gain confidence and explore their potential in a supportive, safe environment.

You can provide an experience to one of our girls in-person and would be provided 40-60 hours of work in exchange for a \$750 donation to our scholarship fund.

The girls who commit to an externship receive a \$500 stipend AND a \$500 educational scholarship. Your commitment to our girls and their success in life is critical to empowering each girl to become strong, smart, and bold!

## BECOME A WORKPLACE Mentor
